Problem Statements:
Sporty Shoes is a company that manufactures and sells sports shoes. They have a walk-in store, and now, they wish to launch their e-commerce portal sportyshoes.com.

You're asked to develop a prototype of the application. It will be then presented to the relevant stakeholders for budget approval. Your manager has set up a meeting where you're asked to do the following:

● Presenting the specification document which has the product's capabilities, appearance, and user interactions

● Setting up Git and GitHub account to store and track your enhancements of the prototype
● Explaining the Java concepts used in the project

● Discussing the generic features of the product:
There will be an admin to manage the website. An administrator login will be required to access the admin page.
